GO terms

estradiol 17–beta–dehydrogenase activity

semaphorin receptor binding

bHLH transcription factor binding

histone acetyltransferase activity (H4–K8 specific)

histone acetyltransferase activity (H4–K5 specific)

histone acetyltransferase activity (H4–K16 specific)

FMN binding

enhancer binding

fibroblast growth factor binding

symporter activity

laminin binding

14–3–3 protein binding

U6 snRNA binding

dystroglycan binding
